## Assembly Instructions

- To install fender mount, drill 12/32" holes in fender at desired position so that the support tubes are on 38" to 42" centers and buggy top is centered over seat.
- Secure assembly to fender using (#4) 3/8" x 1" cap screw with the (#8) 1/8" thick washer and (#9) nut on back side of fender as illustrated. Support tubes may be adjusted to desired height and turned 38" to 42" centers.
- Slip assembled buggy top into support tubes and lock assembly with the (#10) set screw.
